

VPLS MANAGED CLOUD SOLUTIONS FOR K-12

MAKING THE MOVE TO THE VPLS CLOUD

SOLUTION

For all K-12 district personnel whose goal is to provide the best data security and internet services for their schools, VPLS's managed cloud solutions can help achieve just that. If your school uses internet to support staff members' work as well as power students' classroom essentials, our managed cloud services will supply uninterrupted connection to firewall protected internet free of rolling brownouts, blackouts, and power spikes. Cloud migration is also the perfect way to store and secure your valuable data without you having to expand your real estate or look for another location. Our off-premise data centers are set up with proper air-cooling and are highly protected with multiple secured entry-points. In addition to offering your district with top-notch internet and data storage services, VPLS's managed cloud solutions also provide you with the following:

- ▼ Colocation services for your physical servers
- ▼ Backup and disaster recovery
- ▼ Clear communication every step of the migration process - you will know what to expect from the beginning all the way until completion.
- ▼ A tour of our facility to see where your data will be stored
- ▼ Plus peace of mind for your board members and superintendent!

Our solutions architects are ready plan a cloud migration strategy fit for your school district, so contact us at VPLS today!
